

RIMECK®

Workwear made real

Working clothes aren't decided on just by high demands of professionals who wear them every day. Fashion trends rule there as well. It's no wonder; after all, we spend most time of the day at work and deserve to look and feel good. That's why we keep moving the boundaries, devoting ourselves to design, improving the quality, style, functionality and, above all, safety in the Rimeck brand. Our HIGH VISIBILITY line is ideal wherever safety at reduced visibility is of paramount importance.

After all, its qualities are certified by certification based on European standards. In addition, the new VERTEX collection is a perfect example of how customers' needs are reflected in our products. We left nothing to chance when designing them and didn't allow any compromise. So, whatever you experience during your work commitments, you'll appreciate their resilience, smart design and function materials.

00 94 01 02 05 15 06 95 04 11 07 47

PRESHRUNK COTTON

During the production process of cotton products the space between the fiber gets reduced which eliminates the risk of shrinkage of the fabric during the washing and drying cycle. This process allows the final product to be washed at high temperatures for the purpose of removing any impurities and bacteria.

BASE R06

01	01	01	01	01	01	01	01	01	01	01

RIP STOP

Very strong, regularly repeating weave. In this smooth fabric, thick warp and weft threads are interwoven in intervals of 5 - 8 mm. The surface gets an effect of a grided structure. This apparent grid significantly increases the fabric's resistance to ripping and tearing.
